„Ein großer Schritt über die Grenze“

Ich berufe mich auf den Zeitungsartikel vom 12.04.04., der in der Panorama Zeitung erschien. Die polnischen Unternehmer schaffen in Deutschland viele, neue Arbeitsplätze, wovon die Deutschen nicht viel wissen oder nicht gut informiert sind.

Viele polnische Firmen stellen die deutschen Arbeiter ein. Wenn ein Deutscher eine Arbeitstelle sucht, kann er sie bei polnischen Firmen bei: Autofirmen, Tankstellen, Frisören oder Metzgern finden.

Ein polnischer Unternehmer Joachim Siekiera, der freiwillig im Hochlohnland Bundesrepublik polnisches Kapital investiert hat, hat neue Arbeitsplätze nicht nur für polnische Arbeiter, sondern auch für Deutsche geschaffen. Seine Haltung halten einige Leute für "Exot".

Wie die Mehrheit der Deutschen meint, kommen die polnischen Unternehmer nach Deutschland nicht aus dunklen Motiven, aber vor allem aus unternehmensstrategischen Gründen. " Es ist auch dabei natürlich, dass Polen Geld verdienen wollen " - äußerte Joachim Siekiera.

Die Tatsache, dass der polnische Arbeitsmarkt vor allem in der Nähe der Grenze zukünftig auch für deutsche Arbeitnehmer interessant wird, muss sich erst noch einen Weg in die deutschen Köpfe bahnen.

Warum fürchten sich eigentlich einige Deutschen vor den polnischen Investoren? Warum haben unsere Nachbarn verschiedene Fürchte vor Polen? Die Mehrheit von Deutschen findet Polen als ein wirtschaftlich rückständiges Land.

Unsere Firmen kommen schon in den meisten Fällen ausländischen Investoren gleich und unsere einige Produkte sind sogar besser als die Ware aus Ausland.

Unsere Grenzen sind schon offnet, man kan ohne Probleme durch die Grenze fahren. Junge Leute können im Ausland studieren, die Sprachkenntnisse vervollkommen.

Die Europäische Union, bietet uns viele Chancen an. Wir habe mehr Möglichkeiten, unsere Kultur, Tradition und das Leben besser kennen lernen. Wir können einander näher kommen und auf diese Art und Weise die Vorurteile abbauen.

Zwei Sprachen, zwei Welten? Sind wir toterant?

Würdest du mit einem Punk in einem Zimmer wohnen? Hättest du nichts dagegen, dass deine Tochter einen Afrikaner heiraten würde?

Wärest du zufrieden, wenn dein Kind eine andere als deine Religion bekennen würde? Hast du keine Vorurteile? Da bist du wirklich tolerant. In dem Lexikon findet man unter dem Begriff "Toleranz", dass man andere Überzeugungen, Normen, Wertsysteme und Handlungen gelten lässt. Im Alltag ist es aber nicht einfach, tolerant zu sein. Man kann sich davon überzeugen, wenn man die Aussagen von verschiedenen Leuten und ihre Gespräche hört. Manchmal reicht es mit einer Straßenbahn zu fahren oder einen Spaziergang in der Stadt zu machen um festzustellen, dass wir untolerant sind. Oft hört man "man sollte sie einsperren" oder "wenn das meine Tochter wäre ..."

Die Leute , die anders als wir aussehen oder anders denken, haben genau so viel Recht auf Leben, wie wir " normale " unauffällige Bürger.

Die Toleranz setzt voraus, dass jeder Mensch seinen Platz in der Gesellschaft finden soll. Wir müssen uns aber bewusst machen, dass die Toleranz ihre Grenzen hat. Sie endet dort, wo das menschliche Unrecht beginnt. Wir dürfen nicht gleichgültig an Leidenden und Unglücklichen, an Hungrigen und Geschlagenen vorbeigehen, sonst ist das keine Toleranz mehr. Das ist schon die Gefühllosigkeit den anderen gegenüber.

Toleranz in katolischen Augen
(Auf Grund vom Gespräch mit Priester Leon Knabit)

Manche Leute halten Toleranz für die Gleichgültigkeit oder für das Recht des Menschen auf alles. Sie irren sich.

Die Toleranz stützt sich an Akzeptierung aber ihre Grenze sind da, wo Böse beginnt. Erlauben eine Fremdsünde ist zugleich unsere Sünde. Man darf nicht Böse rechtfertigen.

Wir haben Recht auf kategorischen Widerspruch im Zufall, wenn jemand unsere Freiheit antastet. Wenn Alkoholiker über Toleranz spricht, ist er selber nicht tolerant für seine Familie und Freunde, die in Verbindung mit seinem Trinken nicht setzen können.

Aber wie soll man sich angesichts Homosexuelle benehmen? Die Gemeinde erinnert, dass es sehr wichtig ist, Person und Sünde zu unterscheiden. Aus diesem Grund hat man einen Pflicht aus dem Homosexuellismus ausgehen zu helfen. Solche Einstellung soll aus der Mitmenschliebe kommen. Aus denselben Quelle folgt die Achtung vor anderen Religionen – jedoch unterschreibt man, dass jede Religion ihre Identität erhalten soll, damit einen redlichen Kontakt möglich wird.

answer for qustion 4

The population of immigrants is increasing in Cyprus which is leading to a fall in the number of job vacancies for cypriot nationals because young immigrants accept lower salaries and therefore tend to be hired more easily. Although there are certain advantages having an increased number of immigrants due to an introduction of foreign cultures and traditions to Cyprus. We are becoming more and more aware of foreign cultures and learning about new ways of living.

Question from Cyprus:

- Do you know any Cypriots in your school or country?
- What are your hobbies?

Hi we are Andreas and Margarita from Cyprus. We are 18 years old. we are happy to be able to communicate with you and we hope to find more about Spain and to help you find more about Cyprus.:)

1)we have 26 nationalities in our school:

German, French, Spanish, Greek, Cypriot, Romanian, Latvian, Hungarian, Russian, English, Lebanese, Armenian, Chinese, Philippinese, Irish, Scottish, Japanese, Ukranian, Iraquee, Australian, Saudi Arabian, South African, Canadian, Italian.

2)Most of the people in our school come from Cyprus or England. Many have one of their parents who is from another country. for example, Margarita is half-German and Andreas is half-French. When students are younger they tend to stick together and support people from the same county. but later on, they are assimilated into Cypriot culture and do not feel threatened by Cypriots in any way so they do not have the need to form groups. There is not a lot of racism in our school.

Hello!! We are Eleni, Elena and Chrystalla. We are at the seventh year at the American Academy Larnaca in Cyprus.

As far as your question 3 is concerned, yes, sometimes the English speaking students are ignored, put aside. This happens mainly at younger ages (12-15 years old) where people are more fragile. However, when students become more mature these problems are eliminated.

We would like to ask you a question. Are there any teachers who favour or disfavour students because of their nationality?

We also have RELigious Studies lessons. We study the Christian Bible. Amongst students, there are also other religions such as Catholics, Protestants, Muslims, Jehovah witnesses. We only study Christian RELigious studies because the very vast majority of students are Christians. Also in cyprus there are not many people that are not Christians.

Question 7: Students of different nationalities are friends. They get on well. For example i have friends from school who are Cypriot, German, Australian, Armenian, Welsh, Russian and

we would also like to ask you some questions:

- 1) Are most of the students in your school Christian or Muslim?

Hello, we are 14 students in our grammar school (high school), one part of the school here in Freiburg.

It took a long time to answer your questions because at the time we have a lot of tests and tasks at school. Sorry, next time we will answer earlier.

Some answers to your questions:

There are about 42 nationalities at our school.

Normally they aren't organized in groups at school and don't try to solve their national problems here. Maybe a few of them do this, but we don't know them, because our school has a lot of different training programmes for young people who want to become clerks, managers,...

and it has about 2770 pupils.

We are visiting the grammar school, so we don't know the pupils for example in other training programmes.

Our favourite hobbies are listening to music, attending parties and concerts, chilling, sports as for example dancing and swimming.

But what we like most is being together with friends and having a lot of fun together.

Normally we get on well with pupils of other nationalities. We think we all go to school for the same reasons and aims and we all should have the same rights and should be treated equally.

But for having same rights immigrants should try to integrate in the German society.

If they try to do this we accept them whether they wear a hijab or not. In our school some young muslim women wear a hijab, most don't wear it. Nobody at school wears a long dress, they normally wear modern European clothes even if they wear a hijab.

So for German students it's not a problem when some young muslim women at school wear a hijab. We accept them as they are.

So we would like to hear about your getting on with pupils of other nationalities at your school.

We're waiting for your answers or other questions if you want!

We wish you a merry Christmas and a very happy new year.

Lots of greetings from Germany.

1. There are some different nationalities in our school, in particular students from Sri Lanka, China and Albania. What about your school?

2. No, they aren't organised in group because there are not many

3. Not, not in our school. And in yours?

4. We should welcome them anyway; if they are good people, we can learn a lot from their culture and traditions and they can learn a lot from our civilization in situation of mutual respect. We think that we all should learn to live together by understanding and tolerating the differences, it's also important to learn some words about other languages to let them feel accepted. What is your opinion?

5. Our school is a Technical School and there are five courses of study. Students here can attend a business and foreign language correspondence course, a biological course, a social assistant course and a course for dietist. What kind of school is yours?

6. Ilenia sings and plays volleyball; Sara loves music and art. She is having violin lessons and is attending a theatre course at school. Alba (who is an Albanese) loves travelling and meeting new people, she also likes theatre.

7. We are open to other nationalities and we usually get on very well with them , and you?

8. We find that in our town there is a bit of marginalization in particular to African people because there is a sort of refusal of their life habits and conditions too.

9. No, there aren't any Muslim students, but if there were some, they would be accepted.

13. We think that every citizen living in a country is to obey to and respect the laws of that country. Do you agree with us?

14. We should support their "free" choice. What is your opinion on that?

15. Yes, we have a religion hour per week (catholic religion); anyway the students of different religion may not attend the religion class; they can do other activities outside the classa, if they want. Is the same in your country?

we are from greece. we go to ellinogermaniki agogi which is a private school that has to do with the german language. we have not many nationalities in our school except few germans. in public schools over greece there are a lot of albanians. they are organised in groups, and they haven't been assimilated in the greek community. immigrants (especially albanians) cause negative feelings -mostly- and are a provocation.

Unfortunately in our school, which is a private one, are no national minorities! But in public schools are many. Some of them are Albanians Bulgarians and many other nationalities of the Balkans and of Eastern Europe. Also there are many Muslims especially in schools in the center of Athens.

The minorities in Greek schools, religious and national, are in most of them isolated from the rest of the greek students.

We hope that you answer us soon!

Kisses from Helen and Emily

Dear Trini, Lorena,Chema,

Thank you for your questions. Sorry for finding them so late. I want to ask my students to answer you. I try to answer your questions, but it is my personal opinion, not on official one.

- 1- How many nationalities there are in your high school?
There are no nationalities in our school. Some students (5-6) have a Russian mother, one girl has an Arabic father, but it is not a topic at our school.
- 2- Do they organise in groups?
They don't organise any groups. They aren't here in such a big number.
- 3- Do they reproduce the confrontation among their countries in your school?
No. There are no confrontations in this term. It is a part of their private life.
- 4- What do you think about immigrants?
If they can accept the culture the majority, they can do at home what they want. They can use their language worship their own god. But I don't want to worship Allah because of them. If they want to enjoy the Hungarian standard of living they mustn't disturb our life.
- 5- Can you describe your institute?
It is a secondary vocational school for economics with 488 students.
- 6- What are you ofition?
What does ofition mean?
- 7- How is your relation with students from other nationalities?
No problems. Nationality is a private thing. My grandmother is Serbian, my wife is Slovak. But it is not a topic of public debates, it is my own luck or bad luck.
- 8- Does left out exist in your town or city? and in your school?
I don't understand your question. Rewrite it please.
- 9- Do muslims girls wear hijab in your school?
There are no muslims in our school.
- 10- What do you think about the hijab?
What does hijab mean? Is it the arabic scarf?
- 11- Did they do P.E. with the hijab and the long dress?
No hijabs in our school.
- 12- Why did they get the hijab?
I don't understand your question. Rewrite it please.
- 13- What do you think about the prohibition the hijab in france?
I agree with French authorities.
These people live in France. They must live according to French law and culture. If they can't accept it, they can go back to their original countries. They will have the chance to practice their habits and customs there. If they want to enjoy French social system, they have to behave in public places as French do.
- 14- Do the young muslims girls must feel resting to wear it or must be resting for they don't

wear it?

I don't understand your question. Rewrite it please.

15- Have you got religion in your school?

How many religions are there?

Our school is a state school. No lessons of religion can you find here. We train economists.

If you want to get religion you have to go to another schools in our town. We asked our students several years ago. Everybody wanted to go home after the lessons. Nobody wanted to stay here for some religion lessons.

You could read my opinion. It is quite typical opinion in Hungary. We don't have many immigrants and we are not longing for the problems they can cause. I want to apologise if some immigrants are reading these lines.

There are seven nationalities in our classl, they are from Argentine,Ecuator,Sweden,Romania,Dominican Republique,Germany and Spain. They aren't organized in groups. No,they don't. We think that they are persons like we and we mustn't shun them. There are about 850 or 900 pupils here. Our principals hobbies are:dancing, go out with our friends, playing badminton. We get with pupils of other nacionalities, very well. we don't know if there are margination in our city, because we don't see that. In our high school there aren't young muslim, but we think that wear hijab is a way of thinking, and that they wear it because they wont. We think that the ban of hijab in france is a prohibition of her way of thinking and a prehibition of part of her religion;and we think too, that is a form for help they to integrate in the society. They should feel lean for wear this, and they should feel lean for they don't wear. In our high institute there is religion, but only there is cathdic's religion. well, we are waiting your answers!!! and you can write to maryah_15@hotmail.com, cristironda@hotmail.com if you want...

other parts of the world

Our thoughts and prayers are with the families and innocent victims from many nations who suffered in these senseless attacks. Those who committed these acts cannot be but the most brutal of all in the world.

Islam orders peace and a true Muslim can only be a symbol of peace and the maintenance of basic human rights. Terrorism cannot be a means for any Islamic goal, and a terrorist cannot be a Muslim, nor can a true Muslim be a terrorist.

In this tragic month, when anger and mutual fear seem to be the dominant feelings in the relations between nations and peoples; necessity of the multicultural dialogue becomes inevitable.

To overcome this plague that threatens the peace and stability of the whole world, we should get together to learn about each other and discuss matters of common concern in a spirit of mutual respect and understanding.

Meine deutsche Freundin hat einen sehr interessanten Bericht über Polen, während des Besuches in meinem Land geschrieben. So schreibt sie: " In Polen waren wir immer wieder überrascht und verwundert über bestimmte Gewohnheiten: es gibt an Bahnübergängen keine Schranken, sondern man schaut einfach nach rechts und links und fährt einfach drüber, Filme werden nicht ins polnische übersetzt, der Originalton läuft im Hintergrund und ein polnischer Übersetzer spricht die Rollen, egal ob Mann oder Frau. An Fronleichnahm gab es in fast allen Familien Kartoffelklößchen. Für viele von uns war es auch ungewohnt, dass unsere polnische Austauschpartner sehr gläubig sind, und da unser Besuch eben auf den Feiertag Fronleichnahm fiel, waren wir viele stundenlang auf Prozessionen unterwegs. Bemerkenswert bleibt die unheimliche Gastfreundschaft unserer Nachbarn. " Mein Vater " hat sich sogar mehrere Stunden mit einem Wörterbuch hingesetzt, um mir einen deutschen Brief zu schreiben, in dem er mich erneut in seine Wohnung einlud und versprach Deutsch zu lernen ".

Meine deutsche Freundin denkt, dass ein Austausch, besonders mit Polen wichtig und notwendig ist, um leider hartnäckige Klischees zu beseitigen. Sie meint, dass Jugendliche in Polen weitaus lockerer und offener als deutsche sind. " Die Jugendliche - schreibt sie - sind auf uns zugekommen, haben mit uns geredet, haben sich für uns interessiert. Interesse, das wir unseren Nachbarn und EU-Mitgliedern vielleicht ein bisschen mehr schulden - es lohnt sich ".
